Subject: HCC-2026-117 M1 Inception report: accepted

Dear Tom,

Thank you for the Inception report for contract HCC-2026-117, which you emailed to me as a PDF on 5 October 2026.

I have reviewed it with the transport team. The report sets out the survey method: an intercept survey on board buses and ferries, run on weekdays and at weekends. It plans a sample of 1,250 passengers.

Its work plan gives a date for every later milestone: M2 Passenger survey dataset by 27 November 2026, M3 Draft final report by 29 January 2027, and M4 Final report and presentation by 26 March 2027.

On behalf of Harbour City Council I accept the M1 Inception report in writing under clause 4.2 of the Agreement. You may now invoice milestone M1.

Kind regards,

Ada Brennan
Client Project Manager, Harbour City Council
